

BROWNSBURG, IN – Fans of NHRA Full Throttle Drag racing can pre-order a collectable yearbook from the 2012 season that will be available just in time for Christmas. The yearbook, titled "Life's A Drag," will feature full-color action and candid photos of the NHRA's hottest drivers and their families.

Produced by Andrea Pedregon, founder of the Andrea Pedregon Charity Foundation, "A Spark of Hope," the 60-page year in review will highlight the 2012 races and give fans a glimpse into what their favorite pro drivers do when they are not racing.

Proceeds from the sales will benefit colon and prostate cancer research. Pedregon, wife of two-time Funny Car champion Tony Pedregon, raised nearly \$100,000 to support melanoma and children's cancer research in the past two years through sales of her foundation's "Real Housewives" and "Real Families" calendars featuring NHRA drivers and their families.

"I am continually fueled to create new charity projects, thanks to the enormous support from NHRA drivers, teams, sponsors and fans," Pedregon said. "The yearbook sales will support additionally needed research and awareness for prostate and colon cancer."

Fans can order the "Life's a Drag" yearbook now at www.tonypedregon.com for just \$25 each, plus shipping, for guaranteed Christmas delivery. For more information about the Andrea Pedregon Charity Foundation, visit www.andreapedregon.com
